

TIE TENSIONING/CUTTING TOOL - TT4

Application

- For mass application of cable bunching, wire harnessing etc.

Key Industries

- Automobile ● Electrical / Electronics ● Locomotive
● Networking ● Oil, Gas & Offshore ● Ship & Marines
● Solar ● Telecom ● White Goods & Appliances ● Windmill

Specification

- Material:** Metal Body
Color: Blue
Suitable for Tie Size : 2.5mm to 4.8mm width

Features

- Binding, tensioning & cutting of cable ties in one operation for any size of wire bundle
- Provides neat & systematic wire bunching by cutting excess tail
- Speedy installation of cable bunch & labour cost saving

How to use

- Set dial as per cable tie width, for 2.5mm width adjust dial towards -sign and for 4.8mm width adjust dial towards +sign
- With adjustable dial setting, it will first tighten the cable tie on cable bunch & then cut the excess tie from the tail

Type	CAT no.
Cable tie installation tool for Max. 4.7mm width of tie (Metallic Body)	TT-4
