

TIE TENSIONING/CUTTING TOOL - TT5

Application

- For mass application of cable bunching, wire harnessing etc.

Key Industries

- Automobile ● Electrical / Electronics ● Locomotive
● Networking ● Oil, Gas & Offshore ● Ship & Marines
● Solar ● Telecom ● White Goods & Appliances ● Windmill

Specification

- Material:** Metal Body
Color: Red
Suitable for Tie Size : 3.6mm to 13mm width

Features

- Binding, tensioning & cutting of cable ties in one operation for any size of wire bundle
- Provides neat & systematic wire bunching by cutting excess tail
- Speedy installation of cable bunch & labour cost saving

How to use

- Set metal knob as per cable tie width, for 3.6mm width rotate knob anticlockwise whereas for maximum width 13mm rotate knob clockwise to maximum level
- With adjustable knob setting, it will first tighten the cable tie on cable bunch and then cut the excess tie from tail

Type	CAT no.
Cable tie installation tool for Max. 4.7mm width of tie (Sheet Metal Body)	TT-5
